### About us

Urja Solutions and SunAmps are leading providers of renewable energy & power solutions, head quartered in Bangalore and having pan India operations. Professionally managed, we strive to bring world class products and services to the customer's doorstep with effective, hassle free after sales support.

Armed with a team of experienced and dynamic professionals to deliver comprehensive solutions in Renewable energy, we have the expertise to execute a project cutting across the various stages of consulting, design, integration, implementation and management.

### SOLAR PRODUCTS

- Solar Water Heater
- Solar Lighting Systems
- Solar Street Lighting Systems
- Solar PV Modules
- Solar Cookers
- Solar Irrigation Pumping Solutions

# RENEWABLE ENERGY FOR RENEWING THE PLANET

- Solar Energy Solutions
- EPC / Turnkey Projects
- Solar Roofing with Transparent Modules
- Grid Tie Systems
- Off Grid Systems
- Hybrid Systems (Ongrid + Offgrid / Wind + Solar)
- Solar Irrigation Pumping Solutions
- Micro Grid Solutions
- Solar VFD
- Solar Cookers
- Solar Water Heaters

- Wind Energy
- Micro Wind Turbines

- Green Lighting
- LED Lights

- Power Conditioning & Energy Storage
- Ups Systems, Battery, Isolation Transformers
- And Servo Stabilizers

Hybrid Systems (Ongrid + Offgrid / Wind + Solar)
